THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL)

ESTABLISHED 1902

INDEX TO VOLUME LX

January to June, 1939

Head Office:
49, Wellington Street, London, W.C.2

E. Eng. Lib.

Index to Volume LX

SUBJECT INDEX

A

Abrasives and Their Application in Foundry Practice, 227.
Abrasives, Use of Metallic, 11.
Admiralty Laboratory at Sheffield, New, 8.
Alloy Cast Iron, 102, 189, 219, 235, 256.
Aluminium- and Zinc-Base Alloys, Pressure Die-Casting in, 535.
Aluminium Casting Alloys, Solution Heat-Treatment of, 531.
Aluminium Cooking Pans, Moulding, 159.
Aluminium, Lead in, 580.
Aluminium on Unalloyed Steels, Effect of, 492.
America, Foundry Industry in, 60.
American Enamelling Practice, Some Impressions of, 290.
American Metal Specifications, Trends in, 264.
Antimonial Lead Castings, Application and Finishing of, 428.
Atomic Patterns of Metals, 506.
A.R.P. for Factories, Standard Requirements for, 360.
Apprentice Moulders in Sheffield, Competition for, 567.
Australia, Foundry Industry in, 57.

B

Babcock & Wilcox, Limited, Renfrew Foundries of, 269.
Bagshawe & Company, Limited, Dunstable, Foundries of, 463.
Bearing Metals for High-Speed Engines, 209.
Belgium, Foundry Industry in, 66.
Belling & Company, Limited, Enfield, Foundry of, 465.
Blowing Equipment, Selection of Cupola, 156.
Bonding Clays and the Properties of Synthetic Moulding Sands, 509, 568.
Brass, Pouring-Ladle Influence on, 414.
British Industries Fair, Foundry Exhibits at Castle Bromwich Section of, 151.
British Iron & Steel Federation, Annual Banquet, 174.
Bronze Pressure Castings, Production of, 410.

C

Camouflage, Industrial, 558.
Canada, Foundry Industry in, 62.
Cast Iron, Alloy, 102, 189, 219, 235, 256.
Cast Iron and Malleable Iron, Wear Resistance of, 3.
Cast Iron, Cutting Tools for, 571.
Cast Iron, Ladle Additions to, 178.
Cast Iron, Porosity and Sinking in, 329, 344, 364, 389.
Cast Iron, Pressure-Casting Machine for, 267.
Cast Iron, Refining, 99.
Cast Iron, Some Notes on High-Duty, 176.
Cast Iron, Thirty Years of Progress in, 366.
Cast Iron, Two New Patented Processes for Production of, 173.
Cast Irons, High-Duty, 421.
Cast Irons, Thermal Conductivity of High-Duty and Alloy, 513.
Castings and the Nature of the Materials of the Melt, Relationship between the Quality of Iron and Steel, 547.
Castings for Steelworks Plant, Some Iron, 521, 570.
Castings for the British Gas Industry, 423, 442.
Castings, Manufacture of Very Light Engineering, 306.
Castings *versus* Steel Fabrications, Iron, 135, 160.
Centrifugal Castings, 310.
Chains and Other Lifting Gear, 384.
Chaplet Elimination, 5.
Conduit Boxes, B.S. Specification for Cast-Iron, 144.
Control Instruments, Care and Maintenance of, 230, 251.
Conveyor, Special Sorting, 384.
Cooker on "Coronation Scot," Solid-Fuel, 101.
Cooking Pans, Moulding Cast-Iron, 402.
Cooking Pans, Moulding Aluminium, 159.
Co-operation between Foundry, Drawing Office and Machine Shop, 81.
Copper-Melting Furnace, French, 159.
Copper Position, Precarious, 110.
Copper Situation, 258.
Core Drying and Shop Layout, 103.
Core-Shop Control, 516, 552, 568, 575.

Correspondence:—

Cupola Control, 564.
Evaluation of Returned Scrap, 2.
Modern Sand Testing, 436.
Moulding Test-Bars, 322, 340.
New Steelmaking Process, 282, 398.
Pattern-Plate Materials, 170.
Pig-Iron Supplies, 2, 76.
Porosity and Sinking in Cast Iron, 340, 380.
Some Impressions of American Enamelling Practice, 398.
Some Notes on Machine Moulding, 150.
Stellite, 92.
Cracking of Ingot Moulds, 403, 419.
Crane, Limited, Ipswich, Foundries of, 465.
Cupola Blowing Equipment, Selection of, 156.
Cupola Control, 399.
Cupola for Producing Controlled Carbon Content, 311.
Cupola, Investigation of Some Relationships between Variables of the, 171, 191.
Cupola, Notes on the, 422.
Cupola, Patching the, 110.
Cutting Tools for Cast Iron, 571.
Cwmbran Engineering Company, Limited, New Works of, 245.
Czecho-Slovakia, Foundry Industry in, 64.

D

Davy & United Roll Foundry, Limited, Reorganisation and Extension of Works of, 193, 215.
Defence Affecting Industrial and Commercial Establishments, Civil, 384.
Dentistry, Foundry Work in, 283.
Department of Scientific and Industrial Research, Annual Report of, 138.
Die-Casting in Aluminium- and Zinc-Base Alloys, Pressure, 535.
Drawing Office and Machine Shop, Co-operation between Foundry, 81.

E

Ealing Park Foundry Company, Limited, South Ealing, Works of, 467.
Education for Foundry Personnel, 84.
Elasticity of Cast Iron, 282.
Electric Furnaces for Vitreous Enamelling, 120, 200.
Enamel Control, Investigation and Modern Ideas on, 445.
Enamel Practice as Applied to Cast Iron, Foundry and, 368, 447.
Enamelling Practice, Some Impressions of American, 290.
Enamelling Troubles, 10.
Enamels, Control of, 371.
Engineering Iron Foundry, Melting Practice in a Large, 231, 253, 268.
Equipment in 1938, Foundry, 34.
Eye Accidents, Protection against, 316.

F

Far East, Foundry Industry in the, 68.
Filter, Newcon, 416.
Ford Motor Company, Limited, Dagenham, Recent Activities of, 469.
Founders' Company Fellowships, 117.
Foundry and Enamel Practice as Applied to Cast Iron, 368, 447.
Foundry Practice, Some Impressions of Modern, 118.
Foundry Production, Problem of Economic, 350.
Foundry Trades' Equipment and Supplies Association, Annual Report of, 218.
France, Foundry Industry in, 61.
French Foundry Technical Association, Election of New Officers of, 278.
Frits at and near Firing Temperatures, Consistency of Enamel, 14.
Furnace, French Copper-Melting, 159.
Furnace, New Pulverised-Fuel-Fired Rotary Furnace, 173.
Furnace, Stress-Relieving, 305.
Furnaces for Vitreous Enamelling, Electric, 120, 200.
Furnaces, Foundry Melting, 361.

G

Gas Fuel for Foundries, Applications of, 416.
Gas Industry, Castings for the British, 423, 442.
Gas Industry, Vitreous Enamel and Its Interest to the, 370.
Gas Unsoundness in Metals, Effect of Melting Conditions on, 576.
Gates, Shearing of Malleable Iron, 408.
Gating Problem, 252.
Gating with Special Reference to the Optimum Flow Conditions in Molten Metal, 519.
Gear Blanks, B.S. Specification for Iron Castings for, 144.
Germany, Foundry Industry in, 69.
Gillett & Johnston, Limited, Croydon Foundry of, 471.
Glacier Metal Company, Limited, Alperton, Foundry of, 473.
Grey Cast Iron, Hardening and Tempering, 437.
Grey-Iron Foundries in 1938, 25.

H

Hall, Limited, Dartford, Foundries of J. & E., 325, 464.
Hardening and Tempering Grey Cast Iron, 437.
Heat-Treatment of Aluminium Casting Alloys, Solution, 531.
High-Duty Cast Iron, Review of Progress in, 29.
High-Duty Cast Iron, Some Notes on, 176.
High-Frequency Melting Installation at Wolverhampton, 383.

I

Income-Tax Assessments, New Items in, 284.
Ingot Mould, Largest, 392, 542.
Ingot Moulds, Cracking of, 403, 419.
Inspection in the Repetition Foundry, 343.

E. Eng. Lib.

Institute of British Foundrymen:—
Annual General Meeting in London, 501.
Annual Report, 502.
Birmingham Branch, Annual Dinner and Dance, 114.
Birmingham Branch, Annual Meeting, 367.
East Anglian Section, Annual Dinner, 155.
East Midlands Branch, Annual Dinner, 211.
East Midlands Branch, Annual Meeting, 302.
Edward Williams Lecture, 507.
Election of New Members, 92, 342.
Golf Competition, 398.
Lancashire Branch, Annual Dinner and Dance, 134.
Lancashire Branch, Annual Meeting, 334.
Lancashire Branch Junior Section, Short Paper Competition of, 153.
London Branch, Annual Meeting, 334.
London Branch, Mock Trial of "Iron Castings *versus* Steel Fabrications," 135.
Scottish Branch Annual Dinner, 9.
Sheffield Branch, Annual Meeting, 342.
Technical Committee's Seventh Annual Report, 505.
West Riding of Yorkshire Branch, Annual Dinner and Dance, 98.
West Riding of Yorkshire Branch, Annual Meeting, 380.
Year of Great Activity for the Institute, 33.
Institute of Metals, Annual General Meeting of, 210.
Insulating Materials, Thermal, 296.

International Foundry Congress:—
Banquet, Speeches at the, 496.
Delegates Attending the Congress, 477, 556.
Excursion to Windsor and River Trip, 546, 551.
Executive Committee, 460.
Foundries to be Visited, 463.
Garden Party at Harrow, 499.
Government Reception at Lancaster House, 495.
Message from the President Designate, 455.
Opening Session, 493.
Papers and Their Authors, 479.
Post-Congress Tour of Britain, 476, 546, 565.
Presidential Address, 499.
Programme, Final Details of, 303, 458.
Reception by the President, 547.
Subscribers to Congress Fund, 322, 394.
Inverse Segregation during Solidification, Progress of, 573.
Iron and Steel Institute, Annual Meeting in London, 381.
Iron Castings *versus* Steel Fabrications, 135, 160.
Iron Foundry, Melting Practice in a Large Engineering, 231, 253, 268.

J

Jobbing Problems, Some, 212, 440, 481.

K

Keller Automatic Toolroom Machine, Use of Three-Spindle, 133.

L

Ladle Additions to Cast Iron, 178.
Lead Castings, Application and Finishing of Antimonial, 428.
Lead in Aluminium, 580.

Leaders:—
Back Numbers, 169.
Castings *versus* Weldings, 169.
Civil Defence Measures, 263.
Cupola Developments, 321.
Descaling by Oxy-Acetylene, 359.
Desulphurisation with Caustic Soda, 75.
Exports, 187.
Export Business, 339.
Floors for Industrial Purposes, 91.
Internal and External Inspection, 339.
International Foundry Congress in London, 301, 491, 492.
Labour Control, 75.
Look Before You Leap, 149.
Muck, Dust and Darkness, 225.
Moulding Test-Bars, 281.
Mutual Understanding, 109.
National Physical Laboratory, 281.
New Foundry Research Facilities, 563.
Paper Profits, 243.
Practical Processes, 379.
Progress of Alloying Cast Iron, 397.
Raw Materials, 1.
"Real Meat," 225.
Review of the Industry in 1938, 21.
Scrap Evaluation, 1.
Square Deal, 435.
Swiss National Exhibition, 435.
Trade Associations, 131.
Unsolved Problem, 207.
Week-End Conference in Paris, 415.
Light-Alloy Melting Practice, 527.
Light Alloys, Effect of Melting Conditions on, 528.
Light Alloys in 1938, 40.
Light Alloys, Influence of Repeated Remelting on the Properties of, 555.
Light Castings Industry in 1938, 28.
Light-Castings Industry, Wages in the, 71, 76, 106.
Loam Moulding, Examples of, 115, 139, 154.
Lubricant for Rubber, 342.

M

Machine-Moulding, Some Notes on, 93, 113.
Magnetic Separation, Development of, 273.
Magnets, Permanent, 492.
Main, Limited, Upper Edmonton, Foundry of R. & A., 474.
Malleable Iron Gates, Shearing of, 408.
Malleable Iron Industry in 1938, 26.
Malleable Iron, Wear Resistance of Cast Iron and, 3.
Malleablisation of White Iron, Some Notes on the, 6.
Malleablising, 486.
Manganese in Steel, 322.
Marine Engineering in 1938, Shipbuilding and, 31.
Materials and Their Testing, Annual Report of Joint Committee on, 322.
Mechanical Testing, Practice in, 111.
Melting Conditions on Gas Unsoundness in Metals, Effect of, 576.
Melting Conditions on Light Alloys, Effect of, 528.
Melting Furnaces, Foundry, 361.
Melting Practice in a Large Engineering Iron Foundry, 231, 253, 268.
Melting Practice, Light-Alloy, 527.
Metals, Atomic Patterns of, 506.
Molybdenum in Cast Iron, 274, 285.
Mould "Blowing," 277.
Moulding Aluminium Cooking Pans, 159.
Moulding, Art of, 430.
Moulding Cast-Iron Cooking Pans, 402.
Moulding Materials in 1938, Refractories and, 36.
Moulding, "Sandontap" System of Moulding, 484.

N

National Physical Laboratory, Teddington, 475.
News Highlights in 1938, 54.
Nickel and Its Alloys in 1938, 43.
Nickel in the Non-Ferrous Foundry, 265, 287, 327.
Ni-Hard in the Foundry, 314.
Non-Ferrous Foundry Industry, 70.
Non-Ferrous Foundry, Nickel in the, 265, 287, 327.
Non-Ferrous Foundry Practice in 1938, 39.
Non-Ferrous Metal Markets in 1938, 46.
Non-Ferrous Metals, Stability in, 360.

O

Oil-Engine Castings, Production of, 347.

P

Patterns and Core Boxes, Precision Production of Metal, 133.
Patterns, Production of Castings from Shell, 179.
Patternshop Expedients, 182.
Pig-iron and Steel Output in 1938, World's, 42.
Pig-iron Industry in 1938, 23.
Pipe Fittings, B.S. Specification for, 144.
Pipe Specials, New Foundry for, 363.
Porosity and Sinking in Cast Iron, 329, 344, 364, 389.
Pouring-Ladle Influence on Brass, 414.
Pressure-Casting Machine for Cast Iron, 267.
Pressure Die-Casting in Aluminium- and Zinc-Base Alloys, 535.
Pulverite Works at Brancepeth, 557.

Q

Quenching Oils, Properties of, 483, 542.

R

Randupson Process, 97.
Refining Cast Iron, 99.
Refractories and Moulding Materials in 1938, 36.
Refractories, Characteristics and Make-up of, 341.
Remelting on the Properties of Light Alloys, Influence of Repeated, 555.
Research, Two-Year Review of Foundry, 37.
Rolls, Fracture of Chilled and Grain, 79.

S

Sand Testing, 196.
Sand Testing, Modern, 385, 406.
"Sandontap" System of Moulding, 484.
Sands, Bonding Clays and the Properties of Synthetic Moulding, 509, 568.
Sands, Effect of Moisture on the Principal Properties of Moulding, 141.
Scandinavia, Foundry Industry in, 67.
Segregation during Solidification, Progress of Inverse, 573.
Shearing of Malleable Iron Gates, 408.
Shell Patterns, Production of Castings from, 179.
Shipbuilding and Marine Engineering in 1938, 31.
Silicosis by Metallic Aluminium, Prevention of, 343.
Sinking in Cast Iron, Porosity and, 329, 344, 364, 389.
Solution Heat-Treatment of Aluminium Casting Alloys, 531.
South Africa, Foundry Industry in, 58.
South Yorks, Early Iron Industry in, 16.
Spelter Duty Revision, 564.
Spelter Outlook, Uncertain, 208.
Stanton Ironworks Company, Limited, New South View Specials Foundry of, 363.
Steel, Casting of, 80.
Steel Castings for Motor Vehicles, 77.
Steel Castings, History of, 499.
Steel Founding, Fifty Years' Progress in, 324.
Steel Foundries in 1938, 27.
Steel, Temperature of Molten, 362.
Steelmaking Process, New, 248.
Steelworks Plant, Some Iron Castings for, 521, 570.
Sterling Manufacturing Company, Cubitt Town, Foundry of, 475.
Strength, Influence of Form and Scale on, 422.
Sulphur in Solid Fuels, Estimation of, 421.
Synthetic Moulding Sands, Bonding Clays and the Properties of, 509, 568.

T

Tempering Grey Cast Iron, Hardening and, 437.
Tensile Testing, B.S. Specification for, 170.
Thermal Conductivity of High-Duty and Alloy Cast Irons, 513.
Time Studies, Foundry, 286.
Titanium in Cast Iron, 421.
Trading Conditions in the Chief Foundry Centres in 1938, 48.
Training the Young Foundryman, 409.
Turner, Limited, Ipswich, Foundry of E. R. & F., 475.

U

Unsoundness in Metals, Effect of Melting Conditions on Gas, 576.

V

Vanzetti, Golden Jubilee of Fonderia Milanese di Acciaio, 188, 282.
Vitreous Enamel and Its Interest to the Gas Industry, 370.
Vitreous-Enamelled Ware, Problems of the Users of, 121.
Vitreous Enamelling, Electric Furnaces for, 120, 200.
Vitreous Enamelling, Further Observations on Scientific Aids to Control in, 197.
Vitreous Enamelling in 1938, 38.
Vitreous Enamelling, Technical Problems in, 293.

W

Wear Resistance of Cast Iron and Malleable Iron, 3.
Wear-Resisting Alloys, 323.
Welding Research Report, 226.
"White Deposit" Defect in Large Iron Castings, 238.
White Iron, Some Notes on the Malleablisation of, 6.

Z

Zinc-Base Alloys, Pressure Die-Casting in Aluminium- and, 535.
Zinc, Higher Duty on, 441.
